### UCONN Zone Offense Set Play

Post player (#5) steps out of the lane and sets a ball screen for the point guard (#1).

(#1) can come off of the screen looking for the jump shot. (#3's) defender in the zone may slide up trying to guard the ball screen which could leave (#3) open in the corner for a shot.

(#4) slides across to the open block on the ball side of the floor.

(#1) then reverses the ball to the (#2) man who has filled to the top of the floor for balance and spacing.

(#2) now has a clear out on the opposite side of the zone because of the original overload.

(#2) may penetrate looking to get in the gaps for a shot or a dump off pass to either (#4 or #5).
