

Maryland

Early offense (2)

1

Maryland Early Offense

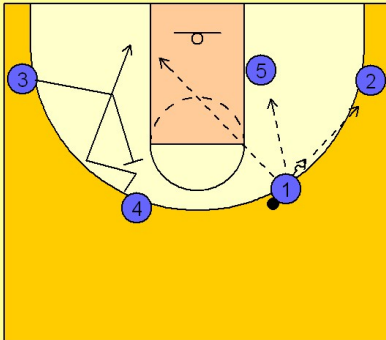

(#1) dribbles to a side, then returns back to the middle of a ball screen from (#4).

As this is happening, (#5) follows the ball across to ball side block. (#3) is preparing to set a back screen for (#4), which is some good "pick the picker" action.

2

Maryland Early Offense

As (#1) comes off the ball screen from (#4), (#3) sets a back screen for (#4).

(#4) goes to the basket looking for the lob pass.

(#1) has the option to throw the lob pass, hit (#5) in the post or hit (#2) off of the dribble penetration from the ball screen.
