## Ob under vs. man / zone (1)

1

Maryland OB Under vs. Man / Zone

(#2 and #3) clear out leaving the post area for (#4 and (#5) to work without weakside help defenders.

(#1) will look to lob pass over the top of the defense to (#5) if he is being fronted. (#1) will then step to the corner after the inbound pass looking for a return pass and shot (if his defender helps on the post pass to (#5).

(#4) will also work for post position, keeping his defender away from the play.
