

Maryland Quick hitter (9)

1

Maryland Quick Hitter

This is another variation of the famous "America's Play".

(#1) can go in either direction. In this diagram he goes to his right side and uses the ball screen from (#5). As (#1) is bringing the ball over to the right side, (#2) is coming straight up the middle off of a down screen from (#4). (#5) rolls to the basket after the ball screen on (#1) and looks for a post up opportunity on the blocks. (#1) can load up the post player (#5) or look to hit (#2) coming off the down screen for the jump shot. They will run motion offense from here.
