

Michigan state Early offense (1)

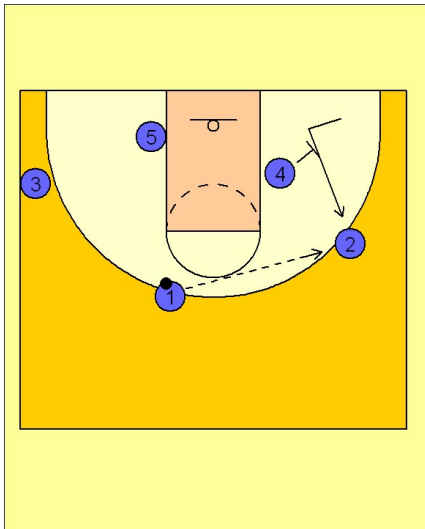

1

Michigan State Early Offense

Point guard (#1) uses ball screen from trailing (#4) man and will immediately look for the dump down pass to the (#5) man sliding across the lane. (#5) is isolated in the post because of good spacing from (#3) and (#2) and from the screening action of (#4).

2

Michigan State Early Offense

(#4) will then "head hunt" and find (#2's) defender and set a screen for a jump shot.
