Once #4 has the ball, #3 will step in and post up on the low block. This action is not only intended to get the ball inside to #3, but also setup the double screen on the back side of the floor.

By posting on the block, #3's defender may front him, giving #3 a jump on breaking out to the wing on the other side of the floor off the double screen from #2 and #5.

If #3 does not get the ball, #2 is cutting out to the left wing off of a screen from the other post player #4.
