1

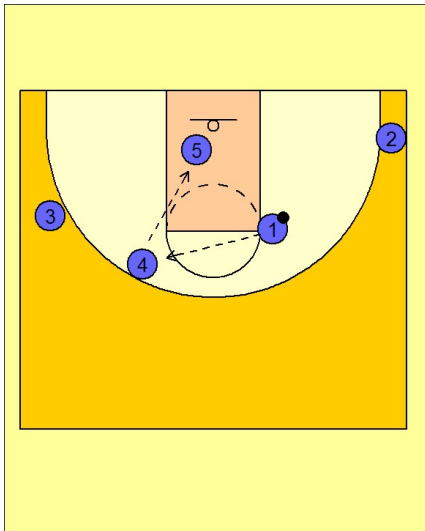

Ohio State Early Offense vs. Man Defense

#5 sets a ball screen on #1 on top. As #1 comes off the screen, #2 is fading to the corner for the potential drive and kick out.

#4 vacates the area #1 is driving towards and pops out to the top of the key, near where #1 just left with the ball.

#5 rolls back towards the middle of the floor.

2

Ohio State Early Offense vs. Man Defense

If #1 can't score off the drive himself, kick it to #2 on the wing, or hit #5 rolling to the basket, he can give the ball back to #4 on the perimeter who can look to dump it into the sealing post man #5.
