## Early offense (3)

1

### Utah Early Offense

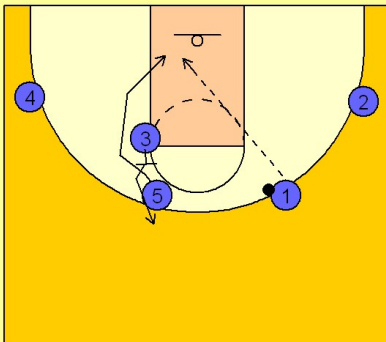

Out of transition, the trailer man #5 sets a ball screen for #1. #1 takes the ball across the top of the key.

#4 steps out of the block to the opposite wing area. #3 moves into the lane to set a back screen for #5.

2

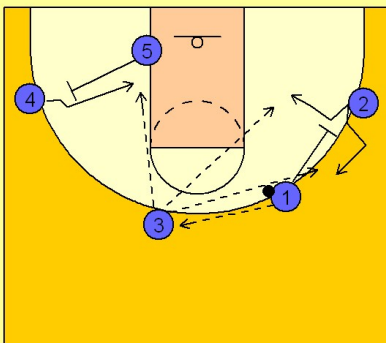

### Utah Early Offense

#3 sets the back screen and then steps back out to the perimeter. #1 looks for #5 coming off the back screen for the lob pass to the basket.

3

### Utah Early Offense

#1 passes the ball to #3 on top if the lob to #5 is not open.

When #3 has the ball, #1 screens away for #2. #2 can come off high for the ball and potential shot or fake high and cut to the basket for the layup.

#5 steps out and sets a back screen for #4 who breaks to the basket. They get into their motion offense from here.
