

Wake forest

Early offense (3)

1

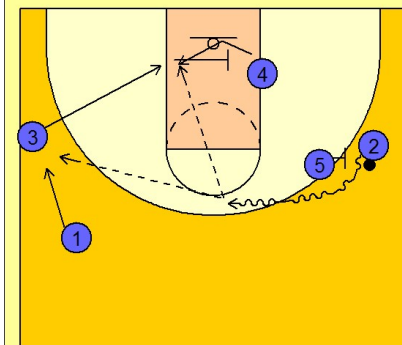

Wake Forest Early Offense

#1 brings the ball up and swings the ball to the trailer man #5. #5 passes to #2 on the right wing and sets a ball screen for #2 on the right wing.

2

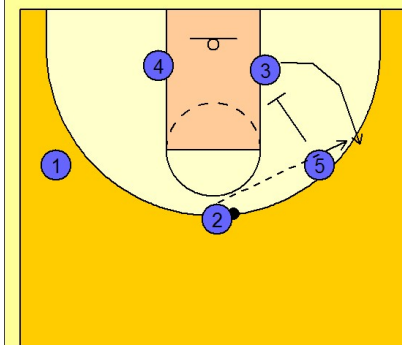

Wake Forest Early Offense

As #2 comes over the top of the ball screen, #3 is cutting into the lane and setting a cross screen in the middle of the lane for #4. #2 looks to enter the ball to #4 coming underneath the screen. #1 floats down to the left wing for the potential kick out from #2.

3

Wake Forest Early Offense

If #4 or #1 is not open, #5 will move down into the lane after ball screening for #2 and set a down screen for #3 on the right low block. #2 will look to hit #3 on the right wing if he is open for the jump shot.
