

Gonzaga

Early offense (4)

1

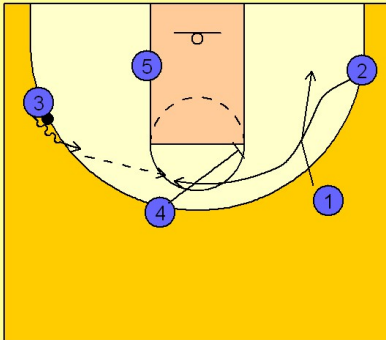

Gonzaga Early Offense

#1 reverses the ball on top to #4 who passes to #3 on the left wing. #5 follows the ball across to the ball side low block.

2

Gonzaga Early Offense

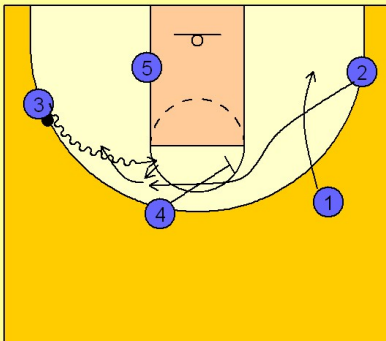

Once #4 passes to #3, #1 cuts away while #2 comes up to the top off of a screen by #4. #3 puts the ball down to improve his passing angle and hits #2 for a jumper on top if he is open.

If he gets it, #4 would get into the post and Gonzaga would run their motion offense from here or work the 3 out 2 in high / low offense.

3

Gonzaga Early Offense

Another wrinkle that Gonzaga will add is for #3 to dribble at #2 on top executing a dribble hand off and screen for #2 to catch and shoot over the top.
