Gonzaga Set Play vs. Man

Hate to put this one in here, but Gonzaga ran it so we will include. Probably have seen this one a few thousands times, but here goes the famous "America's Play" one more time.

#4 and #5 can ball screen for #1 to start. Doesn't have to happen, but that is an option you can use.

#1 takes the ball to the right or left side. Here we see him dribble towards the right wing. As this is happening, #2 is screening across for #3. #1 looks to make the post entry pass to #3 on the right low block.

Gonzaga Set Play vs. Man

If #3 is not open, #4 and #5 are down screening for #2, trying to free him for an open jumper on the top of the key.
