

**Ob under vs. man (14)**

**Duke OB Under vs. Man Defense**

This is a popular alignment from Duke. They run some pretty simple, yet effective stuff from it.

Here we see #5 breaking out to the ball side corner area.

#4 screens for #3. #3 cuts to the ball side block while #5 looks to screen, pin and seal for the ball on the opposite block area. Very effective if the defenders try and switch this screening action.
