Duke OB Under vs. Zone

Editors note: It is obvious after watching Duke play for many years, it is their number one goal to get the ball inbounds and run offense, as opposed to trying to score from an inbounds "play".

- 1 4 high across alignment.
- (#2) breaks to the block away from the ball while (#4) breaks to the ball side block.
- (#5) sets a screen for their shooter to get open on the perimeter for a shot, but more importantly, for an inbounds pass.
