### Florida Early Offense

Florida likes to push the ball in transition looking for a good three point scoring opportunity.

They will often push the ball to a wing area and execute a dribble hand off on the fly with the wing player.

In this diagram we see (#1) bringing the ball up hard on the dribble and quickly turns his dribble toward the wing player (#2).

(#2) v-cuts and comes back to the ball and takes the hand-off from (#1) and takes the ball into the gap in the middle of the top of the key area looking for a shot or driving opportunity. He will also look to kick the ball back to (#1) if the defenders get hung up on the dribble hand-off.
