

Florida

Quick hitter (3)

1

Florida Quick Hitter

Florida uses this quick hitter as does Louisville.

(#4) sets a straight on back screen for (#1) to use in either direction. (#2) and (#3) work the wing areas looking for a kick out pass from (#1).

(#5) will be in the short corner area off the lane a few feet. (#4) can either roll to the basket or step back for a 3-point shot.

It is important that the opposite wing player, either (#2) or (#3), float back for defensive balance on the penetration by (#1).
